· Precautionary statements:

Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell. Store locked up. Protect from sunlight. Store in a well-ventilated place. Store in a well-ventilated place. Keep container tightly closed. Dispose of contents/container in accordance with local/regional/national/international regulations. *Unknown acute toxicity:* 100 % of the mixture consists of component(s) of unknown toxicity.

• NFPA ratings (scale 0 - 4)

· HMIS-ratings (scale 0 - 4)

HEALTHImage: OFIREImage: OREACTIVITYReactivity = 0

· Hazard(s) not otherwise classified (HNOC): None known

3 Composition/information on ingredients

Chemical characterization: Mixtures

· Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous Components:			
CAS: 7727-37-9 RTECS: QW 9700000	Nitrogen	Press. Gas, H280; Simple Asphyxiant	1-99%
CAS: 7440-59-7 RTECS: MH 6520000	Helium	Press. Gas, H280; (1) STOT SE 3, H336; Simple Asphyxiant	1-99%

4 First-aid measures

· Description of first aid measures:

• After inhalation:

Generally the product does not irritate with inhalation.

Supply fresh air. If required, provide artificial respiration. Consult doctor if symptoms persist.

In case of unconsciousness place patient stably in side position for transportation.

• After skin contact:

Generally the product does not irritate the skin.

In cases of contact with liquified material, frostbite may occur. Immerse frostbite in cool-warm water and seek medical attention.

Wash with soap and water.

If skin irritation occurs, consult a doctor.

After eye contact:

Not anticipated under normal use.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing:

Not a normal route of entry.

OSHA HazCom Standard 29 CFR 1910.1200(g) and GHS Rev 03.

Trade name: Precision Calibration Gas Mixture

If swallowed and symptoms occur, consult a doctor.

- Information for doctor:
- · Most important symptoms and effects, both acute and delayed: No further relevant information available.
- Indication of any immediate medical attention and special treatment needed:
- No further relevant information available.

5 Fire-fighting measures

- Extinguishing media:
- · Suitable extinguishing agents:

Use fire fighting measures that suit the environment. Use water spray to cool fire-exposed containers.

Special hazards arising from the substance or mixture:

Closed containers may explode when exposed to extreme heat.

If incinerated, product will release the following toxic fumes: Oxides of Nitrogen (NOx).

Advice for firefighters:

This gas mixture is not flammable; however, containers, when involved in fire, may rupture or burst in the heat of the fire.

Protective equipment:

As in any fire, wear self-contained breathing apparatus pressure-demand (NIOSH approved or equivalent) and full protective gear to prevent contact with skin and eyes.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures:

Treat any fumes as toxic.

Ensure adequate ventilation.

Keep people at a distance and stay upwind.

In a confined area, NIOSH approved respiratory protection may be required.

- Environmental precautions: Inform authorities in case of gas release.
- Methods and material for containment and cleaning up:
- Dispose of the collected material according to regulations.
- · Reference to other sections:

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

· Handling

Precautions for safe handling:

Ensure good ventilation/exhaustion at the workplace.

Be aware of any signs of dizziness or fatigue; exposures to fatal concentrations of this gas mixture could occur without any significant warning symptoms due to the potential for oxygen deficiency (simple asphyxiation). Do not attempt to adjust, repair or in any other way modify the cylinders containing this gas mixture. If there is a malfunction or another type of operational problem, contact nearest distributor immediately.

Information about protection against explosions and fires:

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.

Do not cut, grind or weld on container that contains or contained product.

Do not spray on a naked flame or any incandescent material.

• Conditions for safe storage, including any incompatibilities: Store away from strong oxidizing agents.

OSHA HazCom Standard 29 CFR 1910.1200(g) and GHS Rev 03.

· Storage

· Requirements to be met by storerooms and receptacles:

Store in a cool location.

Cylinders should be firmly secured to prevent falling or being knocked over. Cylinders must be protected from the environment, and preferably kept at room temperature. Cylinders should be stored in dry, well-ventilated areas, away from sources of heat, ignition, and direct sunlight. Protect cylinders against physical damage. Full and empty cylinders should be segregated. Use a "first-on, first-out" inventory system to prevent full containers from being stored for long periods of time.

- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.
- Specific end use(s): No further relevant information available.

8 Exposure controls/personal protection

- · Additional information about design of technical systems: No further data; see section 7.
- · Control parameters:

All ventilation should be designed in accordance with OSHA standard (29 CFR 1910.94). Use mechanical (general) ventilation for storage areas. Use appropriate ventilation as required to keep Exposure Limits in Air below TLV & PEL limits.

• Components with occupational exposure limits:

7727-37-9 Nitrogen

TLV withdrawn TLV, see App. F; simple asphyxiant

7440-59-7 Helium

TLV TLV withdrawn, see App. F; simple asphyxiant

• Additional information: The lists that were valid during the creation of this SDS were used as basis.

- Exposure controls:
- Personal protective equipment:
- General protective and hygienic measures: Wash hands before breaks and at the end of work.
- · Breathing equipment:
- Not necessary if room is well-ventilated.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure, use respiratory protective device that is independent of circulating air.

- Protection of hands: Not required.
- · Eye protection: Not necessary under normal conditions.

9 Physical and chemical properties

· Information on basic physical and chemical properties

· General Informati	ion
---------------------	-----

· Appearance:	
Form:	Gaseous
Color:	Clear, colorless
· Odor:	Odorless
· Odor threshold:	Not determined.
· pH-value:	Not determined.
· Change in condition	
Melting point/Melting range:	Not determined.
Boiling point/Boiling range:	Not determined.
· Flash point:	None

0 Stability and reactivity	

- · Reactivity: No further relevant information available.
- · Chemical stability: Stable under normal conditions.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions: No dangerous reactions known.
- · Conditions to avoid: No further relevant information available.
- · Incompatible materials: Strong oxidizing agents.
- · Hazardous decomposition products: Nitrogen Oxides (NOx).

1 Toxicological information

- Information on toxicological effects: The toxicity of this product is unknown.
- Acute toxicity:
- Primary irritant effect:
- · On the skin: No irritating effect.
- · On the eye: No irritating effect.
- Additional toxicological information:
- · Carcinogenic categories:
- · IARC (International Agency for Research on Cancer):
- Group 1 Carcinogenic to humans

Group 2A - Probably carcinogenic to humans

Group 2B - Possibly carcinogenic to humans

Group 3 - Not classifiable as to its carcinogenicity to humans

Group 4 - Probably not carcinogenic to humans

None of the ingredients are listed.

12 Ecological information

- *Toxicity:* The hazards for the aquatic environment are unknown.
- Aquatic toxicity: No further relevant information available.
- Persistence and degradability: No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential: No further relevant information available.
- · Mobility in soil: No further relevant information available.
- · Additional ecological information:
- · General notes: Generally not hazardous for water.
- Results of PBT and vPvB assessment:
- · PBT: Not applicable.
- · vPvB: Not applicable.
- Other adverse effects: No further relevant information available.

13 Disposal considerations

· Waste treatment methods:

· Recommendation:

Release all residual gas pressure in a well ventilated area. Verify the cylinder is completely empty (0 PSIG). Remove or cover any hazard labels. Return empty cylinder for recycling.

NOTE: Check with the local easte authority before placing any gas cylinder into waste container for pickup. GASCO encourages the consumer to return all cylinders.

· Waste disposal key:

The U.S. EPA has not published waste disposal numbers for this product's components.

· Uncleaned packagings:

· Recommendation: Return cylinder and unused product to supplier.
